With expertise in technology and creativity, Kanishk is experienced in creating visually appealing, intuitive, and user-friendly designs. He has also developed leadership skills through leading teams and working on multiple projects. Kanishk is open to new opportunities and collaborations.

Experience

Intern • Finlatics   **Jan 2023 - Present**

In Finlatics, I learned valuable skills related to managing finances and investing in stocks. Through this course, I gained an understanding of financial management concepts such as budgeting, cash flow analysis, and financial planning. Ialso learned how to analyze financial statements and assess the financial health of a company.

One of the most significant skills that I gained through Finlatics was the ability to invest in stocks. I learned how to analyze stock market trends, identify potential investment opportunities, and make informed investment decisions. This knowledge has equipped me with the tools and strategies necessary to invest in the stock market and manage my investments effectively.

Overall, Finlatics has provided me with a solid foundation in financial management and investment strategies, which I believe will be valuable in my future endeavors. These skills will enable me to make sound financial decisions and achieve my financial goals.

Intern • Content Writer • Top Trove Foundation   **FEB 2023 – Present**

During my time at TopTrove Foundation, I worked on a variety of content creation projects, including blog posts, social media content, website copy, and email newsletters. I was responsible for researching, writing, and editing content that effectively communicated the organization's mission and values to its audience.

Through my work as a content writer, I gained a deeper understanding of how to craft compelling messages and engage with different audiences. I also developed strong writing, editing, and proofreading skills, which allowed me to produce high-quality content consistently.

Moreover, working collaboratively with other members of the content team helped me to develop leadership skills. I learned how to manage projects and deadlines, delegate tasks effectively, and provide constructive feedback to team members. These experiences not only strengthened my content creation abilities but also helped me to become a more effective communicator and team player.

Education

Bachelor of Technology - BTech • Vellore institute of technology, Bhopal   **Aug 2022 - Present**

computer science

I enrolled in Vellore Institute of Technology Bhopal to study a Bachelor of Technology in Computer Science Engineering. Iam currently in the final stage ofmydegree and have displayed an industrious attitude and focus while learning. My enthusiasm for cultivating knowledge and making a positive contribution has enabled me to perform well academically and in extra-curricular activities, showing a commitment to excellence. I am certain that my qualifications and experiences give me the ability to succeed in my chosen field and I am excited to look for new opportunities in it.

high school diploma • Delhi public school ghaziabad international   **Feb 2014 - Feb 2021**

computer science • Grade: 8.9

I am a student who completed my high school diploma at Delhi Public School Ghaziabad International. During my time there, I gained a lot of valuable experiences and developed strong leadership qualities that have prepared me well for my future endeavors.

At Delhi Public School Ghaziabad International, I received a well-rounded education that gave me a strong academic foundation. Additionally, my experiences and skills have prepared me for a variety of opportunities in the field of computer science engineering.
